

### NATRAFat RUMI – Rumen-Stable Fat Powder

NATRAFat RUMI is a high energy fat powder 100% derived from fully refined palm oil.

NATRAFat RUMI has high concentration of palmitic acids (C16) which enhances milk fat % as well as its production.

NATRAFat RUMI can bypass the animal's rumen system to serve as a direct energy source thus increasing the animal's "apparent" energy.

NATRAFat RUMI comes in granulated dry form, naturally palatable and free flowing.

#### Features and Benefits:

- High Energy Concentration
- Increase milk yield and milk fat content
- Reduces the risk of ketosis
- Improve pregnancy rate
- No hydrogenation and free from trans fatty acid
- Highly palatable due to its natural vegetable fat odour
- Halal and Kosher certified

#### Fatty Acid Profile:

- C14:0 0%-3%
- C16:0 70%-80%
- C18:0 5%-10%
- C18:1 8%-12%
- C16:0 + C18:0 85%

#### Feeding recommendation:

200g - 500g/cow/day, depending on milk yield

#### Application:

Used as ingredient in premixes production and complete feeds

#### Storage:

Store in cool and dry place, away from sunlight and heat. 12 months shelf life.

#### Packaging:

25kg (55lb) paper bag with PP woven laminated
